DOLINA NOTECI PREMIUM - DRIED LAMB JUNIOR

Composition: lamb 26% (meat 15%, hearts), beef 25% (meat 15%, hearts, tripes, liver), pork 24% (meat 10%, lungs, kidneys), cod 5% (carcass), potato starch, chicken fat, eggs 3%, vegetable glycerine, cranberries 2%, broccoli 1%, carrot 1%, powder cellulose, minerals, linseed oil 0.2%, lecithin, Plantago seed 0.2%, chicory inulin (prebiotic) 0.2%, Mojave yucca, yeasts products 0.05% (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindnera jadinii AQP 12549), dried rosemary 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 28%, crude fat – 15%, crude ash – 7%, crude fibre – 3%, moisture – 16%, calcium – 0.9%, phosphorus – 0.8%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Metabolic energy in 100 g: 334 kcal.

DOLINA NOTECI PREMIUM - DRIED RABBIT JUNIOR

Composition: rabbit 26% (meat 15%, liver), beef 25% (meat 15%, hearts, tripes, liver), pork 24% (meat 10%, lungs, kidneys), cod 5% (carcass), potato starch, chicken fat, eggs 3%, vegetable glycerine, blueberries 2%, courgette 1%, carrot 1%, powder cellulose, minerals, linseed oil 0.2%, lecithin, Plantago seed 0.2%, chicory inulin (prebiotic) 0.2%, Mojave yucca, yeasts products 0.05% (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindnera jadinii AQP 12549), dried basil 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 28%, crude fat – 15%, crude ash – 7%, crude fibre – 3%, moisture – 16%, calcium – 0.9%, phosphorus – 0.8%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Metabolic energy in 100 g: 334 kcal.

DOLINA NOTECI PREMIUM - VEAL WITH GUINEA FOWL – for adult dogs of small breeds

Composition: veal 47% (meat 30%, hearts, tripes, liver), pork 24% (meat 10%, lungs, kidneys), cod 5% (carcass), guinea fowl 4% (meat), potato starch, chicken fat, eggs 3%, vegetable glycerine, cranberries 2%, spinach 1%, carrot 1%, powder cellulose, minerals, linseed oil 0.2%, lecithin, Plantago seed 0.2%, chicory inulin 0.2% (prebiotic), yeasts products 0.05% (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindnera jadinii AQP 12549), dried thyme 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 26%, crude fat – 15%, crude ash – 7%, crude fibre – 3%, moisture – 16%, calcium – 0.8%, phosphorus – 0.7%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Metabolic energy in 100 g: 334 kcal.

DOLINA NOTECI PREMIUM - LAMB WITH SHRIMPS – for adult dogs of small breeds

Composition: lamb 26% (meat 15%, hearts), beef 25% (meat 15%, hearts, tripes, liver), pork 20% (meat 10%, lungs, kidneys), cod 5% (carcass), shrimps 4%, potato starch, chicken fat, eggs 3%, vegetable glycerine, cranberries 2%, spinach 1%, carrot 1%, powder cellulose, minerals, linseed oil 0.2%, lecithin, Plantago seed 0.2%, chicory inulin 0.2% (prebiotic), yeasts products 0.05% (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindnera jadinii AQP 12549), dried thyme 0.01%.

Analytical constituents: crude protein – 26%, crude fat – 15%, crude ash – 7%, crude fibre – 3%, moisture – 16%, calcium – 0.8%, phosphorus – 0.7%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Metabolic energy in 100 g: 334 kcal.

DOLINA NOTECI PREMIUM AIR DRIED FOOD FOR DOGS

Dolina Noteci Premium dried food is a modern feeding concept for dogs, which combines crunchiness of dry food with palatability of wet food. Special-purpose mild drying method preserves as much as possible of the nutrients from the raw materials used as part of production. 100 g of the appetising and crispy dried food is made from up to 160 g of fresh meat, fish and animal raw materials. The core ingredients are high-quality meat and animal products, including muscle tissue, with a high content of protein and fatty acids. Fruit and vegetables enrich the composition and taste of the dog food. What is more, these products make a perfect supplement to the daily diet with trace elements which have a positive effect on the functioning of your dog. Its biologically active substances have a beneficial effect on the cardiovascular and urinary systems and slow down liver damage and ageing.

This product is a complete, varied and at the same time convenient form of nutrition for adult dogs. However, it is essential that your dog is given fresh water to drink since it naturally supports the absorption of the ingredients contained in the air dried food.

What is special and innovative about Dolina Noteci Premium dried pet food?

- 100 g of pet food made from 160 g of fresh meat and meat offals.
- No rendered meals, preservatives, flavour enhancers, artificial flavours or colourants.
- The addition of natural antioxidants in the form of vitamin E and rosemary extract helps to protect valuable fats contained in pet food.
- The pet food has been enriched with natural additives with prohealth properties, that support correct functioning of many organs, and help to maintain proper microflora and healthy and shiny fur.
- No extrusion process – which also reduces the loss of nutrients.
- Kibbles are concise, crunchy, slightly springy inside.
- It contains the maximum amount of nutrients, which cover the dog's daily needs.
- It is a convenient form of feeding that can be used anywhere. It combines crunchiness of dry food with palatability of wet food.
- Drying temperature up to 100°C – this method is way less invasive, more natural and a lot more beneficial for the final quality of product, than in case of the production of dry pet food, which undergoes the process of extrusion in higher temperature and under increased pressure.

Immune system support

Eggs – a source of reference protein with sufficient proportions of endogenous and exogenous amino acids involved in the proper formation of antibodies. Additionally, the egg yolk contains lutein, which is an antioxidant and affects your dog's vision as it protects it against oxidative stress.

Chicory inulin – a natural prebiotic. It stimulates the growth of beneficial bacteria in the intestines, preventing at the same time the growth of pathogenic bacteria in your dog's digestive tract.

Natural antioxidant – substances of natural origin, protecting the body's cells against oxidative stress, caused by free radicals. The source of antioxidants are fruits, vegetables and herbs contained in the food. They effectively inhibit ageing processes of the body.

Kidney protection

No added phosphates – thanks to carefully selected raw materials, it is possible to maintain phosphorus in organic form only (naturally occurring in products of animal and plant origin). It is important to maintain the proper ratio of calcium to phosphorus in the food, which guarantees your dog healthy teeth and strong bones.

Healthy skin and shiny coat

Linseed oil – its addition in the diet increases the pool of indispensable unsaturated fatty acids Omega-3 and Omega-6, which ensure the proper looks and condition of the fur.
