

In the northern part of the Wielkopolska province right beside the highest hill, Dębowa Góra, amidst picturesque countryside, Dolina Noteci – one of the most modern pet food production plants in Europe is situated. The name itself reflects not only the rural location of the company, but also its activity which are a healthy lifestyle and properly combined food for pets, made with love. The pet food is made up of the best raw materials, high-quality products, fresh fruit and vegetables from local suppliers. Thanks to the gifts of nature offered by this clean region, the food produced at Dolina Noteci satisfies even the most sophisticated animal palate. Most importantly, the whole process may be viewed by anyone, as the facility has been adapted for being visited by animal lovers.

**A COMPLETE PET FOOD
FOR ADULT CATS OF ALL BREEDS WITH TURKEY**

Weight: bag 3 kg

Composition: meat and animal derivatives 47% (including fresh turkey 4%), derivatives of vegetable origin (including extract of Yucca shidigera 0.2%), vegetables (peas), oils and fats (including salmon oil 0.5%), yeasts 1.5%, minerals.
Analytical constituents: crude protein – 35%, crude fat – 15%, crude ash – 7%, crude fibre – 2.5%, Omega-6 fatty acids – 0.96%, Omega-3 fatty acids – 0.12%.
Additives: nutritional additives/kg: Vitamin A – 21800 IU, Vitamin D3 – 1500 IU, Vitamin E – 460 mg, Zinc (zinc sulphate, monohydrate) – 114 mg, Iron (iron (II) sulphate, monohydrate) – 101 mg, Manganese (manganese (II) oxide) – 20 mg, Copper (copper (II) sulphate, pentahydrate) – 13 mg, Iodine (calcium iodate, anhydrous) – 2.6 mg, Selenium (sodium selenite) – 0.35 mg, Taurine – 1300 mg.
Technological additives: antioxidants.

PIPER ANIMALS

A complete pet food for adult cats
can 400 g, pouch 100 g

PIPER ANIMALS is a complete pet food that covers 100% of the daily demand for all nutrients, minerals and vitamins of adult cats with moderate physical activity, living in comfortable habitats, which are not in the period of pregnancy or lactation. The pet food has been balanced as regards nutrient content according to the latest nutritional recommendations. PIPER food ensures both maintenance of bones and teeth mineralization, as well as the proper course of all metabolic processes. The presence of high levels of EPA and DHA acid is especially valuable since they are involved in the protective processes of nerve tissue and take part in reproductive processes. Their total content in the pet food is 1% of the total fatty acid pool. The content of n-6 fatty acids in the products significantly influences the regulation of metabolic processes and, together with n-3 fatty acids, plays an important role in inhibiting inflammatory processes.

with salmon

Composition: meat and animal derivatives 55% (beef meat 10%, chicken fillet 5%, pork meat 5%, chicken hearts 3%, chicken gizzards 3%), broth, fish and fish derivatives (salmon fillet 10%), minerals, oils and fats (linseed oil 0.2%), dried catnip 0.01%.
Analytical constituents: crude protein – 11%, crude fat – 6%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.
Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg.

with chicken

Composition: meat and animal derivatives 65% (chicken fillet 10%, beef meat 10%, pork meat 10%, chicken liver 3%, chicken hearts 3%), broth, minerals, oils and fats (linseed oil 0.2%), dried catnip 0.01%.
Analytical constituents: crude protein – 11%, crude fat – 5%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.
Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg.

with rabbit

Composition: meat and animal derivatives 55% (rabbit meat 10%, pork meat 10%, chicken fillet 5%, chicken hearts 3%, chicken liver 3%), broth, derivatives of vegetable origin (including pea starch, fructo-oligosaccharides), minerals, oils and fats (linseed oil 0.2%), Plantago seed, dried catnip 0.01%.
Analytical constituents: crude protein – 10%, crude fat – 3.5%, crude ash – 1.5%, crude fibre – 2%, moisture – 82%, calcium – 0.2%, phosphorus – 0.18%.
Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg, L-carnitine – 800 mg.
Urine acidifier/kg: DL-methionine – 4000 mg.

with tuna

Composition: meat and animal derivatives 45% (pork meat 10%, chicken fillet 5%, chicken gizzards 3%, chicken liver 3%), broth, fish and fish derivatives (tuna fillet 10%), derivatives of vegetable origin (including pea starch, fructo-oligosaccharides), minerals, oils and fats (linseed oil 0.2%), Plantago seed, dried catnip 0.01%.
Analytical constituents: crude protein – 10%, crude fat – 3.5%, crude ash – 1.5%, crude fibre – 2%, moisture – 82%, calcium – 0.2%, phosphorus – 0.18%.
Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg, L-carnitine – 800 mg.
Urine acidifier/kg: DL-methionine – 4000 mg.

PIPER ANIMALS DRY PET FOOD range offers products with a balanced content of essential nutrients that meet the daily needs of adult and sterilised cats. The raw materials used in the production process like meat and other animal derivatives, as well as fish and fish products, provide our four-footed friends with complete proteins and fats essential for the correct development at every stage of their lives. Moreover, additives, such as nutritional yeast or Mojave yucca extract, aid in maintaining correct metabolism. Piper Animals dry food for cats includes essential Taurine. Our dry dog food has been enriched with glucosamine and chondroitin, substances improving joint condition.

PIPER ANIMALS dry pet food:

- meet the dietary needs for nutrients, minerals and vitamins, meaning that they can be used in the daily feeding of pets,
- provide complete proteins and valuable fatty acids necessary for the correct function of the cat or dog's body,
- are exceptionally palatable,
- regulate digestive tract function,
- ensure proper bone mineralisation thanks to their calcium and phosphorus content,
- contain salmon oil, which positively impacts skin and fur condition,
- cats can choose from four flavours – beef, chicken, lamb, duck and turkey, as well as salmon for sterilised cats.

A COMPLETE PET FOOD FOR ADULT CATS OF ALL BREEDS WITH BEEF

Weight: bag 3 kg

Composition: meat and animal derivatives 47% (including fresh beef 4%), derivatives of vegetable origin (including extract of Yucca shidigera 0.2%), vegetables (peas), oils and fats (including salmon oil 0.5%), yeasts 1.5%, minerals.
Analytical constituents: crude protein – 35%, crude fat – 15%, crude ash – 7%, crude fibre – 2.5%, Omega-6 fatty acids – 0.92%, Omega-3 fatty acids – 0.12%.
Additives: nutritional additives/kg: Vitamin A – 21800 IU, Vitamin D3 – 1500 IU, Vitamin E – 460 mg, Zinc (zinc sulphate, monohydrate) – 114 mg, Iron (iron (II) sulphate, monohydrate) – 101 mg, Manganese (manganese (II) oxide) – 20 mg, Copper (copper (II) sulphate, pentahydrate) – 13 mg, Iodine (calcium iodate, anhydrous) – 2.6 mg, Selenium (sodium selenite) – 0.35 mg, Taurine – 1300 mg.
Technological additives: antioxidants.

PIPER ANIMALS STERILISED

A complete pet food for adult sterilized cats
can 400 g, pouch 100 g

PIPER ANIMALS STERILISED food series includes precisely selected raw materials – thanks to that their nutrient content covers the specific nutritional requirements of cats after sterilization. PIPER STERILISED products stimulate and control all metabolic processes and thus maintain constant body weight without both deficiencies and overabundances of nutrients. They are a source of high-quality, easily digestible protein rich in all exogenous amino acids. The additive of L-carnitine improves the efficiency of fatty acid transition and thus by increasing metabolic rate reduces the risk of being overweight or obese. Moreover, iodine – a component of a thyroid hormone – is present in pet food and due to that metabolic processes are supported additionally. Thanks to the appropriate production method and precise selection of raw materials, the pet food is characterized by high nutrient digestibility and is perfectly adapted to the nutritional requirements of sterilized adult cats of all breeds.

A COMPLETE PET FOOD FOR ADULT CATS OF ALL BREEDS WITH CHICKEN

Composition: meat and animal derivatives 47% (including fresh chicken 4%), derivatives of vegetable origin (including extract of Yucca shidigera 0.2%), vegetables (peas), oils and fats (including salmon oil 0.5%), yeasts 1.5%, minerals.
Analytical constituents: crude protein – 35%, crude fat – 15%, crude ash – 7%, crude fibre – 2.5%, Omega-6 fatty acids – 0.96%, Omega-3 fatty acids – 0.12%.
Additives: nutritional additives/kg: Vitamin A – 21800 IU, Vitamin D3 – 1500 IU, Vitamin E – 460 mg, Zinc (zinc sulphate, monohydrate) – 114 mg, Iron (iron (II) sulphate, monohydrate) – 101 mg, Manganese (manganese (II) oxide) – 20 mg, Copper (copper (II) sulphate, pentahydrate) – 13 mg, Iodine (calcium iodate, anhydrous) – 2.6 mg, Selenium (sodium selenite) – 0.35 mg, Taurine – 1300 mg.
Technological additives: antioxidants.
