MINI RAFI®

When thinking about small breed dogs, we often do not realise that they are very demanding in terms of their nutritional needs. It is not only a sweet looking little friend, but also a predator and carnivore. Such a dog needs meat in its diet, consisting of selected ingredients. With this in mind, we have developed **Mini Rafi** wet food to keep them fit and healthy. Top-quality meat and animal ingredients guarantee easily digestible protein, while the addition of salmon oil ensures the right ratio of n-3 and n-6 fatty acids. The abundance of vitamins and minerals will not only take care of your perfect condition, but also your skeletal and digestive systems and immunity. Mini Rafi wet food is a healthy meal that no dog can resist – not even the pickiest.
