

LUGER'S

PET FOOD FOR CATS

DAILY PLEASURES

Popular “moggie cat”, Siberian, Siamese, or Persian - regardless of their breed affiliation, cats are carnivorous organisms. Considering their unique dietary needs, Luger’s brand has formulated a line of air dried food. This product, consisting of selected meat and offal, provides all the necessary nutrients essential for the proper functioning of a cat's organism. High content of complete protein and fat not only delivers excellent nutritional value, but also contributes to the sensory attractiveness of the meal for the cat. Luger’s air dried food, with its focus on ingredient quality and nutritional values, represents an excellent choice for caregivers who aspire to provide their pets with a balanced diet. When introducing this type of food into their routine, ensuring the animal has access to fresh drinking water is crucial. It contributes to maintaining appropriate level of hydration of the body, overall good health and well-being of the feline companion.

DAILY PLEASURES

with
veal & lamb

A complete dried pet food for adult cats of all breeds with veal and lamb

Composition: veal 38% (meat 25%, hearts, tripes), pork 27% (meat 10%, lungs, liver 5%, kidneys), lamb 10% (meat 5%, liver), cod 5% (carcass), poultry fat, eggs 3%, pea starch, minerals, cranberry 1%, powder cellulose, salmon oil 0.2%, Plantago seed 0.2%, linseed 0.2%, dried brewer's yeast 0.2% (containing prebiotics: mannan-oligosaccharides and β -glucans), crude lecithins 0.2%, chicory inulin 0.2% (prebiotic), Mojave yucca 0.02%, dried rosemary 0.01%.

Analytical constituents: crude protein – 36%, crude fat – 18%, crude ash – 8%, crude fibre – 3%, moisture – 9%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganese sulphate, monohydrate) – 0.5 mg, Iodine (anhydrous calcium iodate) – 0.4 mg, Taurine – 800 mg; technological additives: natural antioxidants (tocopherols, rosemary extract).

Metabolic energy: 370 kcal/100 g.

KITTEN'S TIME

The Siberian, Siamese, Persian, or colloquially called the "moggie cat" - regardless of their breed affiliation, cats are carnivorous organisms. Taking into account their specific nutritional requirements, Luger's brand introduces a line of air dried food to the market. This product, consisting of selected meat and offal, provides all the necessary nutrients essential for the proper functioning of a cat's organism. High content of complete protein and fat not only delivers excellent nutritional value, but also ensures sensory attractiveness of the meal for the cat. Luger's air dried food, thanks to its high-quality ingredients and nutritional values, is an excellent choice for caregivers who want to provide their pets with a balanced diet. It is essential to provide the animal with access to fresh drinking water when introducing this food into their routine. This will contribute to maintaining the appropriate level of hydration of the body and the overall good health and well-being of the feline companion.

DAILY PLEASURES

Luger's Daily Pleasures line is designed for daily nutrition of adult cats. Products cover 100% of the nutritional needs of these animals based on modern standards and dietary recommendations. The ingredients used, including meat and offal, including fish and fish products, are a source of protein and fat of the highest nutritional and biological quality. Luger's Daily Pleasures products have an optimal fat content appropriate to the natural requirement of arachidonic acid found in meat and offal, essential for proper functioning of a cat's body. Additionally, fish ingredients serve as a natural source of n-3 fatty acids, which play several roles in a cat's body, including inflammation control. Addition of taurine ensures satisfaction of cats' physiological needs, enabling proper digestion of fats and proteins. Optimal calcium to phosphorus ratio contributes to maintaining the balance of these elements in the body and ensures bones mineralization. Iodine supports the proper course of metabolic processes for all nutritional components. Careful selection of ingredients and production method guarantee high palatability, ensuring that every adult cat regularly receives the necessary nutrients to maintain proper health.

DAILY PLEASURES

with white fish

KITTEN'S TIME

Luger's Kitten's Time line offers complete food for kittens from three months of age, based on a variety of meat ingredients. The composition of this food provides diverse sources of protein, fatty acids and other nutrients necessary for healthy growth. Precisely selected proportions of these elements maintain high nutritional and biological value, ensuring optimal growth parameters for young cats. Presence of various types of meat and offal provides all necessary essential amino acids and valuable minerals. The food is enriched with additives regulating digestive and secretory functions of the gastrointestinal tract. Luger's Kitten's Time contains additives necessary to support proper growth and development of little cats, e.g. brewer's yeast and fructooligosaccharides, which support intestinal microbiota. This ensures proper digestive processes, thereby strengthening immune system. The formula of this food also includes additives which are a source of biologically active compounds, ensuring proper functioning of organs in the kitten's body. Beetroot powder and dried rosemary not only stimulate digestive functions, but also protect the body from external negative factors. Additionally, this food contains taurine, a key ingredient in the feline diet that supports digestion and fat absorption and is important for the development of the young cat's nervous system. The composition and consistency of Luger's Kitten's Time food guarantee its attractiveness and palatability, making it an ideal choice as a primary nutritional product, ensuring harmonious growth and development for kittens.
