

pet food for dogs

Dolina Noteci SUPERFOOD Junior lamb recipe

- It is an excellent selection for the daily feeding of puppies and young dogs of medium and large breeds, as its balanced composition fully covers their nutritional requirements, ensuring proper growth and development.
- The lamb meat and raw materials are exceptionally palatable, and the high content of complete protein and fat provides a perfect nutritional basis. This pet food contains the essential fat rich in fatty acids - both belonging to the n-6 and n-3 range - which puppies and young dogs need as part of their diet.
- The addition of psyllium seeds, Mojave yucca, linseed and raw materials that are sources of prebiotics, e.g., mannanoligosaccharides, β -glucans and inulin, guarantees a correct digestive process and stimulates proper functioning of the immune system, which is so crucial throughout the first steps of a puppy's life.
- Fresh fruit and vegetables (carrots, pumpkin, spinach, blueberries, raspberries, apples, oranges, peas) make up an important part of a puppy's or young dog's diet; these are rich in biologically active substances and ensure that the puppy and young dog's daily diet is healthy and tastes great!
- It is important to note that 100 g of the ready-to-eat product is made from as much as 200 g of fresh meat and offals from beef, chicken and pork. The mild drying process preserves as many of the nutrients as possible from the raw materials used to make the pet food.
- The varied and valuable composition includes 80% fresh meat and offals from lamb, beef, pork and turkey, which are sources of highly digestible protein rich in all essential amino acids.
- What makes up the remaining 20% of the composition? It is fresh fruit and vegetables, as well as functional additives, herbs, vitamins and minerals.
- The pet food is made through a low temperature drying process, which guarantees that the high nutritional value of the raw materials is maintained while preserving microbiological safety.

Dolina Noteci SUPERFOOD Junior rabbit recipe

- It is a complete, dried daily pet food for puppies and young dogs of medium and large breeds. It is composition of raw materials guarantees the harmonious growth and development of the young animal, providing it with all the nutrients it needs during such an important period of growth.
- Rabbit meat and liver contain a high proportion of complete protein and make the pet food easily digestible. In combination with salmon oil, they provide essential fatty acids of the n-6 and n-3 range.
- Addition of psyllium seeds, Mojave yucca, linseed and raw materials that are sources of prebiotics such as mannanoligosaccharides, β -glucans and inulin, ensure a proper digestive process. They also stimulate the immune system to function properly so that the puppy benefits from good health during its growth period.
- Fresh fruit and vegetables (carrots, pumpkin, spinach, blueberries, raspberries, pears, oranges, peas) make up an important part of a puppy's and young dog's diet as they are rich in biologically active substances, ensuring their proper functioning and adding variety to every meal.
- 200 g of meat and offals was used to make 100 g of pet food! Due to the mild drying, retains as many nutrients as possible from the raw materials used in its production.
- Fresh meat and offal made of rabbit, turkey, beef and pork make up as much as 80% of the dried food composition. These raw materials are sources of highly digestible protein, rich in all essential amino acids.
- 20% of the composition is fresh fruit and vegetables, as well as functional additives, herbs, vitamins and minerals.

Composition: lamb 36% (meat, liver, hearts), beef 30% (meat, hearts, tripe), pork 14% (meat, lungs, kidneys), beef fat, pea starch, carrots, pumpkin, minerals, powder cellulose, spinach, blueberries, raspberries, apple, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), salmon oil 0.15%, goji berries, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 38%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Composition: rabbit 36% (meat, liver), beef 30% (meat, hearts, tripe), pork 14% (meat, lungs, kidneys), beef fat, pea starch, carrots, pumpkin, minerals, powder cellulose, spinach, blueberries, raspberries, pear, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), salmon oil 0.15%, chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 38%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Composition: turkey 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), poultry fat, eggs, pea starch, carrots, minerals, powder cellulose, spinach, blueberries, raspberries, cranberry, tomato, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), goji berries, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Dolina Noteci SUPERFOOD lamb recipe

- It fully satisfies all the nutritional needs of adult dogs of all breeds. 100 g of finished product is made from up to 200 g of fresh meat and offals from lamb, beef, chicken and pork.
- The unique production method, which is based on drying the meat croquettes with warm air, preserves most of the qualities of the fresh ingredients used to make it.
- Lamb is a source of zinc, a mineral which plays an important role in regulating skin function. It is also a source of vitamin B12 and niacin, which are important for the dog's organism and are highly effective in reducing blood cholesterol and have a beneficial effect on the nervous system.
- Addition of chicken egg and avocado pulp enriches Dolina Noteci SUPERFOOD with essential n-6 unsaturated fatty acids, which have antioxidant and anti-inflammatory properties, as well as inhibiting age-related changes and preventing atherosclerosis.
- There is nothing special about it; the manufacturing method allows to make 100 g of pet food from 200 g of meat and offals. The mild drying process preserves as many of the nutrients as possible from the raw materials used to make the pet food.
- The composition of the pet food is varied and valuable, with up to 80% fresh meat and offals from lamb, beef, chicken and pork, a source of highly digestible protein rich in all essential amino acids.
- Fruit and vegetables, as well as functional additives, herbs, vitamins and minerals make up the remaining 20% of the dried food composition.

Composition: lamb 26% (meat, liver, hearts), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), poultry fat, eggs, pea starch, sweet potatoes, carrots, minerals, powder cellulose, avocado, spinach, blueberries, raspberries, cranberry, Plantago seed, oranges, peas, asparagus, crude lecithins, chirochrylin (prebiotic), chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Composition: game 26% (meat, hearts, liver), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), poultry fat, eggs, pea starch, carrots, pumpkin, minerals, powder cellulose, banana, spinach, blueberries, raspberries, Plantago seed, oranges, peas, asparagus, crude lecithins, chirochrylin (prebiotic), chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Dolina Noteci SUPERFOOD salmon recipe

- This is a perfect match for adult dogs; salmon provides one of the highest digestibility rates of protein and fat, making the pet food extremely digestible and providing valuable n-3 fatty acids to keep your dog's body healthy.
- A high content of salmon meat provides all the nutrients in quantities and ratios to ensure both the proper functioning of the dog's body and the high palatability of the dish.
- Apart from being rich in biologically active substances, fresh fruit and vegetables make up a vital part of a dog's healthy diet and provide them with an unforgettable taste experience.
- Addition of New Zealand green-lipped mussel, glucosamine, chondroitin sulphate to the food supports maintaining the proper condition of the joint cartilage and has an anti-inflammatory effect on bone tissue.
- 100 g of the ready-to-eat product is made from as much as 200 g of fresh meat and offals from salmon, beef, turkey and pork. The mild drying process preserves as many of the nutrients as possible from the raw materials used to make the pet food.
- The varied and valuable composition includes 80% fresh meat and offals from salmon, turkey, beef and pork, which are sources of highly digestible protein rich in all essential amino acids.
- Fresh fruit and vegetables, as well as functional additives, herbs, vitamins and minerals make 20% of its composition.

Dolina Noteci SUPERFOOD guinea fowl recipe

- It is a complete, nutritional dried pet food for adult dogs. Guinea fowl meat and offals make up an excellent source of easily digestible protein, essential fatty acids as well as vitamins and minerals.
- Guinea fowl meat is perfect for feeding dogs with a sensitive digestive tract due to the fact that it is tender and easily digestible.
- Fresh fruit and vegetables, along with abundance of biologically active substances, make up an important part of your dog's diet to ensure it functions properly; on top of this, they enrich the flavour of the pet food.
- Addition of psyllium seeds, Mojave yucca, linseed and raw materials that are sources of prebiotics such as mannanoligosaccharides, β -glucans and inulin, ensure a proper digestive process and proper functioning of the immune system in an adult dog.
- Up to 200 g of fresh meat and offals were used to make 100 g of food! How can this be? This is due to an innovative production method, during which the food undergoes a gentle drying process. It preserves as many of the nutrients as possible from the raw materials used to make the pet food.
- The varied and valuable composition includes 80% fresh meat and offals from guinea fowl, turkey, beef and pork, which are sources of highly digestible protein rich in all essential amino acids.
- Fresh fruit and vegetables, as well as functional additives, herbs, vitamins and minerals make up the remaining 20% of the dried food composition.

Composition: salmon 36%, beef 30% (meat, hearts, liver, tripe), pork 14% (meat, lungs, kidneys), beef fat, pea starch, carrots, sweet potato, minerals, powder cellulose, spinach, blueberries, raspberries, cranberries, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), goji berries, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Composition: guinea fowl 36% (meat, hearts, liver, gizzards), beef 30% (meat, hearts, liver, tripe), pork 14% (meat, lungs, kidneys), beef fat, pea starch, carrots, sweet potato, minerals, powder cellulose, spinach, blueberries, raspberries, pear, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Composition: duck 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), poultry fat, eggs, pea starch, sweet potatoes, carrots, minerals, powder cellulose, banana, apple, spinach, blueberries, raspberries, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), goji berries, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Dolina Noteci SUPERFOOD beef recipe

- This is a complete dried pet food that fully meets the nutritional needs of adult dogs of all breeds. It contains nutrients and biologically active compounds.
- Meat and offals from beef provide valuable protein rich in amino acids and are a source of elements necessary for good health - selenium, iron and copper. Beef is also a source of the important vitamin B12 and fat-soluble vitamins.
- Gastrointestinal functions, both digestive and secretory, are supported through supplementation with chia seeds, linseed, Mojave yucca and seaweed. Addition of brewer's yeast and chirochrylin improves dog's fur condition and maintains proper intestinal flora composition.
- An innovative production method allows 100 g of food to be made from as much as 200 g of fresh meat and offals from beef, chicken and pork. By doing this, as many nutrients as possible from the raw materials used in production are retained in the pet food.
- It contains up to 80% fresh meat and offals from beef, chicken and pork, a source of protein rich in all essential amino acids.
- Remaining 20% of the composition include fresh fruit and vegetables, as well as functional additives, herbs, vitamins and minerals.

Composition: beef 36% (meat, hearts, tripe, liver), chicken 29% (meat, hearts, liver), pork 15% (meat, lungs, kidneys), poultry fat, eggs, pea starch, carrots, minerals, powder cellulose, spinach, blueberries, raspberries, pear, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Composition: lamb 32% (meat, hearts, liver, stomachs), beef 30% (meat, hearts, liver), pork 14% (meat, lungs, kidneys), shrimp 4%, beef fat, pea starch, carrots, pumpkin, minerals, powder cellulose, spinach, blueberries, raspberries, pear, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Dolina Noteci SUPERFOOD goose recipe

- This is a complete dried pet food for adult dogs of all breeds, covering the daily requirement of essential nutrients.
- The pet food contains raw materials rich in different types of tissue such as muscle, connective tissue and heart tissue; variety of textures does an excellent job of stimulating digestive processes.
- 100 g of the ready-to-eat product is made from as much as 200 g of fresh meat and offals from goose, beef, chicken and pork. The mild drying process preserves as many of the nutrients as possible from the raw materials used to make the food.
- We know how important meat and offals is in a dog's diet, which is why you will find up to 80% of it in dried pet food made by us! These are sources of highly digestible protein, rich in all essential amino acids.
- Fresh fruit and vegetables, as well as functional additives, herbs, vitamins and minerals make 20% of its composition.

Composition: goose 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), poultry fat, eggs, pea starch, carrots, minerals, powder cellulose, spinach, pear, blueberries, raspberries, tomato, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), chia seeds, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Dolina Noteci SUPERFOOD MINI veal recipe with guinea fowl

- It's a complete, nutritional dried food for adult small breed dogs.
- Meat and offal made of veal and guinea fowl are an excellent source of easily digestible protein, essential fatty acids, vitamins and minerals. It is perfect for feeding dogs with sensitive digestive tracts owing to its delicate and easily digestible nature.
- As well as being rich in biologically active substances, fresh fruit and vegetables are an important part of a dog's diet, as they ensure that the dog's digestive tract is kept in good condition and enhance the palatability of the food.
- Addition of Plantago seeds, Mojave yucca, linseed and raw materials as a source of prebiotics, mannan-oligosaccharides, β -glucans and inulin, guarantee proper functioning of the immune system and digestive functions of adult dogs.
- We have used as much as 200 g of fresh meat and offal to produce 100 g of food! But how can this be done? Just through an innovative production method where the food undergoes a gentle drying process. This preserves as many of nutrients as possible from the raw materials involved.

Composition: veal 48% (meat, hearts, liver, stomachs), pork 28% (meat, lungs, kidneys), guinea fowl 4% (meat), beef fat, pea starch, carrots, sweet potato, minerals, powder cellulose, spinach, blueberries, raspberries, apple, Plantago seed, oranges, peas, crude lecithins, chirochrylin (prebiotic), goji berries, linseed, yeasts products (inactivated yeast strain: Saccharomyces cerevisiae AQP 12260 and 12988, Cyberlindeira jadinii AQP 12549), Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: antioxidants 0.06% (tocopherol extracts from vegetable oils, rosemary extract - 17 mg/kg).

Analytical constituents: crude protein - 36%, crude fibre - 3%, crude fat - 18%, crude ash - 7%, moisture - 9%.

Additives: nutritional additives/kg: Vitamin D₃ - 450 IU, Vitamin E - 40 mg, Zinc (zinc oxide) - 30 mg, Manganese (manganese (II) oxide) - 2 mg, Copper (copper (II) sulphate, pentahydrate) - 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) - 0.3 mg.

Metabolic energy in 100 g: 374 kcal.

Dolina Noteci SUPERFOOD Sterilised salmon recipe

- Dolina Noteci SUPERFOOD salmon recipe is a maintenance food for sterilised cats and, as well as covering their specific nutritional needs, it is also very tasty, easily digestible and extremely nutritious.
- High proportion of salmon meat makes the food an excellent source of complete protein and provides the cat with n-3 fatty acids, vitamins and minerals, while the addition of L-carnitine stimulates the metabolic rate.
- High salmon content contributes to the palatability of the food, and lower fat content than in unsterilised cat food protects cats after sterilisation against overweight.
- The addition of fresh fruit and vegetables, as well as herbs, provides a number of biologically active compounds that protect the body against the adverse effects of environmental factors and improves the metabolic rate.
- The addition of Psyllium seed, Mojave yucca, linseed, mannan-oligosaccharides and β-glucans derived from dried brewer's yeast and inulin guarantees proper digestive process and stimulates the immunity of the whole organism as well as provides a feeling of satiety.

Composition: salmon 30%, beef 26% (meat, hearts, liver, tripe), pork 14% (meat, lungs, kidneys), turkey 6% (meat), beef fat, eggs, shrimp 4%, pea starch, minerals, linseed oil 0.8%, salmon oil 0.8%, powder cellulose, spinach, orange, goji berries, Plantago seed, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β-glucans), lecithin, chicory inulin (prebiotic), linseed, Mojave yucca, spirulina, New Zealand green-lipped mussel, hemp seeds, green tea, dried sage 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 43%, crude fat – 16%, crude ash – 8%, crude fibre – 3%, moisture – 8%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, L-carnitine – 2000 mg, Taurine – 800 mg.

Urine acidifier/kg: DL-methionine – 3000 mg.

Metabolic energy in 100 g: 364 kcal.

Dolina Noteci SUPERFOOD turkey recipe

- Dolina Noteci SUPERFOOD turkey recipe is a maintenance food for adult cats which covers their specific nutritional needs.
- High content of turkey meat and offal makes the food an excellent source of complete protein and provides the cat with n-6 fatty acids. Raw materials from turkey ensure that the food is easily digestible.
- Supplementing the food recipe with fresh fruit and vegetables provides a number of biologically active compounds that protect the body against the adverse effects of environmental factors.
- The addition of Psyllium seed, Mojave yucca, linseed, mannan-oligosaccharides and β-glucans derived from dried brewer's yeast and inulin ensure proper digestive process as well as stimulates the immunity of the whole organism.
- The sum of biologically active compounds protects the body from the negative consequences of, among others, oxidative stress, i.e. a state when the balance between the amount of harmful free radicals and antioxidants, which task is to neutralise the former, is disturbed in the body. This condition can lead to many diseases and faster ageing of the organism.

Composition: turkey 30% (meat, liver, hearts, gizzards), beef 30% (meat, hearts, tripe), pork 20% (meat, lungs, kidneys), beef fat, eggs, pea starch, minerals, salmon oil 0.8%, powder cellulose, spinach, orange, sea buckthorn, Plantago seed, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β-glucans), lecithin, chicory inulin (prebiotic), linseed, Mojave yucca, spirulina, New Zealand green-lipped mussel, hemp seeds, marigold, dried rosemary 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 41%, crude fat – 20%, crude ash – 8%, crude fibre – 3%, moisture – 8%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

Metabolic energy in 100 g: 384 kcal.

Dolina Noteci SUPERFOOD Sterilised duck recipe

- Dolina Noteci SUPERFOOD duck recipe is a maintenance food for sterilised cats and, as well as covering their specific nutritional needs, it is also very tasty, easily digestible and extremely nutritious.
- High proportion of duck meat makes the food an excellent source of complete protein and provides the cat with n-3 fatty acids, vitamins and minerals, while the addition of L-carnitine stimulates the metabolic rate.
- High duck content contributes to the high taste of the food, and the lower fat content than in unsterilised cat food protects cats after sterilisation against overweight.
- The addition of fresh fruit and vegetables, as well as herbs, provides a number of biologically active compounds that protect the body against the adverse effects of environmental factors and improves the metabolic rate.
- The addition of Psyllium seed, Mojave yucca, linseed, mannan-oligosaccharides and β-glucans derived from dried brewer's yeast and inulin guarantees proper digestive process and stimulates the immunity of the whole organism as well as provides a feeling of satiety.

Composition: duck 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), chicken fat, eggs, pea starch, minerals, linseed oil 0.8%, salmon oil 0.5%, powder cellulose, spinach, bananas, mulberry, Plantago seed, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β-glucans), lecithin, chicory inulin (prebiotic), linseed, Mojave yucca, spirulina, New Zealand green-lipped mussel, hemp seeds, nettle, dried marjoram 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 43%, crude fat – 16%, crude ash – 8%, crude fibre – 3%, moisture – 8%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, L-carnitine – 2000 mg, Taurine – 800 mg.

Urine acidifier/kg: DL-methionine – 3000 mg.

Metabolic energy in 100 g: 364 kcal.

Dolina Noteci SUPERFOOD cod recipe

- Dolina Noteci SUPERFOOD cod recipe is a maintenance food for adult cats which covers their specific nutritional needs.
- Cod is one of those fish species which flesh contains easily digestible protein, as well as plenty of minerals – mainly selenium and the vitamins: niacin and vitamin B12.
- The addition of shrimps in the food guarantees the cat a unique taste experience.
- Additives such as psyllium seed, Mojave yucca, linseed, mannan-oligosaccharides and β-glucans derived from dried brewer's yeast and inulin ensure proper digestion and improve the cat's immune system.
- The sum of biologically active compounds protects the body from the negative consequences of, among others, oxidative stress, i.e. a state when the balance between the amount of harmful free radicals and antioxidants, which task is to neutralise the former, is disturbed in the body. This condition can lead to many diseases and a faster ageing of the organism.

Composition: cod 26%, beef 26% (meat, hearts, liver, tripe), chicken 16% (meat, hearts, liver), pork 8% (meat, lungs, kidneys), chicken fat, eggs, shrimp 4%, pea starch, minerals, salmon oil 0.8%, powder cellulose, spinach, chokeberry, Hawthorn, Plantago seed, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β-glucans), lecithin, chicory inulin (prebiotic), linseed, Mojave yucca, spirulina, New Zealand green-lipped mussel, hemp seeds, marigold, dried thyme 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 41%, crude fat – 20%, crude ash – 8%, crude fibre – 3%, moisture – 8%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

Metabolic energy in 100 g: 384 kcal.

Dolina Noteci SUPERFOOD veal recipe

Composition: veal 36% (meat, hearts, liver, tripe), chicken 29% (meat, hearts, liver, gizzards), pork 15% (meat, lungs, kidneys), chicken fat, eggs, pea starch, minerals, salmon oil 0.8%, powder cellulose, spinach, chokeberry, bird cherry, Plantago seed, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β-glucans), lecithin, chicory inulin (prebiotic), linseed, Mojave yucca, spirulina, New Zealand green-lipped mussel, hemp seeds, green tea, dried oregano 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 41%, crude fat – 20%, crude ash – 8%, crude fibre – 3%, moisture – 8%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

Metabolic energy in 100 g: 384 kcal.

- Dolina Noteci SUPERFOOD veal recipe is a complete, maintenance food for adult cats.
- This dish is particularly easy to digest thanks to its composition based on veal - it is a type of meat from which proteins and fats are particularly well digested.
- The richness of unsaturated fatty acids and amino acids in the food ensures that cats live long and healthy lives.
- Additives such as Psyllium seed, Mojave yucca, linseed, or raw materials that are sources of prebiotics – mannan-oligosaccharides, β-glucans and inulin – ensure proper digestion and stimulate the cat's immune system to function properly.
- The sum of biologically active compounds protects the body from the negative consequences of, among others, oxidative stress, i.e. a state when the balance between the amount of harmful free radicals and antioxidants, which task is to neutralise the former, is disturbed in the body. This condition can lead to many diseases and faster ageing of the organism.

Dolina Noteci SUPERFOOD lamb recipe

- Dolina Noteci SUPERFOOD lamb recipe is a maintenance food for adult cats which covers their specific nutritional needs.
- High content of meat and lamb ingredients makes the food an excellent source of wholesome protein and provides the cat with n-3 and n-6 fatty acids.
- Meat and offals from lamb contribute to the high taste of the food.
- The addition of fresh fruit and vegetables provides a number of biologically active compounds that protect the body against the adverse effects of environmental factors.
- The addition of Psyllium seed, Mojave yucca, linseed, mannan-oligosaccharides and β-glucans derived from dried brewer's yeast and inulin guarantees proper digestive process and stimulates the immunity of the whole organism.

Composition: lamb 26% (meat, liver, hearts), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), chicken fat, eggs, pea starch, minerals, salmon oil 0.8%, powder cellulose, spinach, banana, wild rose, Plantago seed, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β-glucans), lecithin, chicory inulin (prebiotic), linseed, Mojave yucca, spirulina, New Zealand green-lipped mussel, hemp seeds, nettle, dried camomile 0.01%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 41%, crude fat – 20%, crude ash – 8%, crude fibre – 3%, moisture – 8%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc chelate of glycine, hydrate; zinc oxide) – 13 mg, Copper (copper (II) sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

Metabolic energy in 100 g: 384 kcal.

WHAT CONNECTS US, AND WHAT MAKES US DIFFERENT

	DRIED FOOD	WET FOOD	DRY FOOD
PRODUCTION PROCESS	drying with warm air	sterilisation	extrusion process under increased pressure
TEMPERATURE*	below 100°C	below 121°C	above 130°C
DURATION OF HEAT TREATMENT*	approx. 4 hours	approx. 1.5 hours	approx. 20 minutes
FORM OF RAW MATERIALS USED IN THE PRODUCTION	only fresh raw materials (meat and offals as well as fruit and vegetables)	fresh or frozen raw materials (meat and offals as well as fruit and vegetables)	previously processed raw materials, e.g., animal meals, dried fruit and vegetables
SHELF LIFE	18 months	3 years	12-18 months
PACKAGING	bag	can / pouch	bag
