SUPER RAFI

Super Rafi – paté with fillet – with veal and rabbit liver

Composition: meat and animal derivatives 70% (turkey fillet 10%, veal meat 4%, rabbit liver 4%), vegetables (courgette 4%), minerals, oils and fats (linseed oil 0.2%), derivatives of vegetable origin (dried rosehip 0.1%, powdered beetroot juice), glucosamine 0.01%, chondroitin sulphate 0.01%, dried thyme 0.01%.

Analytical constituents: crude protein – 9.5%, crude fat – 6%, crude ash – 3%, crude fibre – 0.8%, moisture – 78%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi – paté with fillet – with veal and rabbit liver is a complete food with turkey fillet for adult dogs of all breeds. The recipe covers 100% of daily nutritional requirements, providing a balanced and highly palatable meal.

The formula contains 70% meat and animal-derived ingredients, including turkey fillet, veal and rabbit liver. A carefully selected combination of muscle meat and offal – also featuring connective tissue – naturally enriches the food with vitamins and minerals, broadens the nutrient profile and improves flavour and aroma.

Precisely balanced levels of protein and fat supply essential amino acids and fatty acids, while providing the energy needed for proper everyday functioning. The mineral composition has been accurately calibrated, with particular focus on the optimal calcium-to-phosphorus ratio, supporting healthy bones and efficient muscular performance.

Functional additives further strengthen the recipe:

- zucchini and powdered beet juice to support digestive comfort and vitality,
- linseed oil as a natural source of valuable fatty acids,
- dried rosehip for additional nutritional support,
- glucosamine and chondroitin sulfate to promote joint health and maintain cartilage condition,
- dried thyme to enhance sensory appeal.

Thanks to gentle production methods and carefully selected ingredients, the food is easy to digest and characterised by high nutrient availability. The recipe is well suited to the nutritional needs of adult dogs, offering complete daily support in an appetising form.

Super Rafi – paté with fillet – with guinea fowl and beef liver

Composition: meat and animal derivatives 70% (turkey fillet 10%, guinea fowlmeat 4%, beef liver 4%), vegetables (spinach 4%), minerals, oils and fats (linseed oil 0.2%), derivatives of vegetable origin (dried rosehip 0.1%, powdered beetroot juice), glucosamine 0.01%, chondroitin sulphate 0.01%, dried thyme 0.01%.

Analytical constituents: crude protein – 9.5%, crude fat – 6%, crude ash – 3%, crude fibre – 0.8%, moisture – 78%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi – paté with fillet – with guinea fowl and beef liver is a complete food with turkey fillet, intended for adult dogs of all breeds. The recipe covers 100% of daily nutritional requirements, providing a balanced and highly palatable meal.

The formula contains 70% meat and animal-derived ingredients, including turkey fillet, guinea fowl meat and beef liver. A carefully selected combination of muscle tissue and offal with connective tissue – natural sources of vitamins and minerals – broadens the nutrient profile, supports overall condition and enhances flavour.

Precisely balanced levels of protein and fat supply essential amino acids and fatty acids, while delivering the energy needed for proper everyday functioning. The mineral composition has been accurately formulated, with particular attention to the optimal calcium-to-phosphorus ratio, supporting healthy bones and efficient muscular performance.

Functional additions further strengthen the recipe:

- spinach and powdered beet juice to support digestive comfort and vitality,
- linseed oil as a natural source of valuable fatty acids,
- dried rosehip for additional nutritional support,
- glucosamine and chondroitin sulfate to promote joint support and help maintain healthy cartilage,
- dried thyme to enhance aroma and sensory appeal.

Thanks to gentle production methods and carefully selected ingredients, the food is easy to digest and characterised by high nutrient availability. The recipe is well suited to the nutritional needs of adult dogs, offering complete daily support in an appetising form.

Super Rafi – paté with fillet – with lamb and turkey hearts

Composition: meat and animal derivatives 70% (turkey fillet 10%, lamb meat 4%, turkey hearts 4%), vegetables (pumpkin 4%), minerals, oils and fats (linseed oil 0.2%), derivatives of vegetable origin (dried rosehip 0.1%, powdered beetroot juice), glucosamine 0.01%, chondroitin sulphate 0.01%, dried thyme 0.01%.

Analytical constituents: crude protein – 9.5%, crude fat – 6%, crude ash – 3%, crude fibre – 0.8%, moisture – 78%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi – paté with fillet – with lamb and turkey hearts is a complete food with turkey fillet, intended for adult dogs of all breeds. The recipe covers 100% of daily nutritional requirements, providing a balanced and highly palatable meal.

The formula contains 70% meat and animal-derived ingredients, including turkey fillet and hearts, as well as lamb meat. A carefully selected combination of muscle tissue and offal with connective tissue – natural sources of vitamins and minerals – broadens the nutrient profile and enhances flavour.

Precisely balanced levels of protein and fat supply essential amino acids and fatty acids, while providing the energy needed for proper everyday functioning. The mineral composition has been accurately calibrated, with particular attention to the optimal calcium-to-phosphorus ratio, supporting healthy bones and efficient muscular performance.

Functional additions further strengthen the recipe:

- pumpkin and powdered beet juice to support digestive comfort and vitality,
- linseed oil as a natural source of valuable fatty acids,
- dried rosehip for additional nutritional support,

SUPER RAFI • PURE LINE •

Super Rafi PURE LINE – lamb with sweet potatoes

Composition: meat and animal derivatives (lamb 65%, including meat 30%), vegetables (sweet potato 4%), minerals, derivatives of vegetable origin (powdered beetroot juice, Mojave yucca 0.02%), yeasts 0.1% (containing prebiotics: mannan-oligosaccharides and β -glucans), dried thyme 0.01%, glucosamine 0.01%, chondroitin sulphate 0.005%.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 2%, crude fibre – 0.6%, moisture – 79%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi Pure Line – lamb with sweet potatoes is a complete, single-protein food for adult dogs of all breeds. It is an excellent choice for dogs with sensitivities or allergies to proteins other than lamb, providing gentle, well-tolerated nutrition.

The recipe covers 100% of the daily requirement for essential nutrients and is based on a high-meat formula with 65% lamb and lamb-derived animal ingredients only. Lamb is a highly digestible source of biologically valuable protein, supplying essential amino acids that support healthy muscles and overall condition. A balanced combination of muscle meat and offal – including connective tissue – naturally enriches the food with vitamins and minerals while enhancing flavor and palatability. Carefully selected levels of protein and fat deliver essential fatty acids and provide the energy needed for proper everyday functioning. The mineral profile has been precisely formulated, with particular attention to the optimal calcium-to-phosphorus ratio, supporting strong bones and healthy muscular performance.

Functional additives further strengthen the formula:

- sweet potatoes and powdered beet juice to support digestive comfort and vitality,
- glucosamine and chondroitin sulfate to promote joint support and cartilage health,
- Mojave yucca and yeast to aid digestive balance and gut function,
- dried thyme to increase aroma and sensory appeal.

Thanks to careful ingredient selection and a gentle production process, the food is easy to digest and characterized by high nutrient availability. It meets the nutritional needs of adult dogs daily, including those requiring a lamb-only diet due to food allergies.

Super Rafi PURE LINE – turkey with sweet potatoes

Composition: meat and animal derivatives (turkey 65%, including meat 30%), vegetables (sweet potato 4%), minerals, derivatives of vegetable origin (powdered beetroot juice, Mojave yucca 0.02%), yeasts 0.1% (containing prebiotics: mannan-oligosaccharides and β -glucans), dried thyme 0.01%, glucosamine 0.01%, chondroitin sulphate 0.005%.

Analytical constituents: crude protein – 10%, crude fat – 7%, crude ash – 2%, crude fibre – 0.5%, moisture – 78%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi Pure Line – turkey with sweet potatoes is a complete, single-protein food for adult dogs of all breeds. It is an excellent choice for dogs with sensitivities or allergies to proteins other than turkey, providing gentle, well-tolerated nutrition.

The recipe covers 100% of the daily requirement for essential nutrients and is based on a high-meat formula with 65% turkey and turkey-derived animal ingredients only. Turkey is a highly digestible source of biologically valuable protein, supplying essential amino acids that support healthy muscles and overall condition. A balanced combination of muscle meat and offal – including connective tissue – naturally enriches the food with vitamins and minerals while enhancing flavor and palatability. Carefully selected levels of protein and fat deliver essential fatty acids and provide the energy needed for proper everyday functioning. The mineral profile has been precisely formulated, with particular attention to the optimal calcium-to-phosphorus ratio, supporting strong bones and healthy muscular performance.

Functional additives further strengthen the formula:

- sweet potatoes and powdered beet juice to support digestive comfort and vitality,
- glucosamine and chondroitin sulfate to promote joint support and cartilage health,
- Mojave yucca and yeast to aid digestive balance and gut function,
- dried thyme to increase aroma and sensory appeal.

Thanks to careful ingredient selection and a gentle production process, the food is easy to digest and characterized by high nutrient availability. It meets the nutritional needs of adult dogs daily, including those requiring a turkey-only diet due to food allergies.

Super Rafi PURE LINE – duck with sweet potatoes

Composition: meat and animal derivatives (duck 65%, including meat 30%), vegetables (sweet potato 4%), minerals, derivatives of vegetable origin (powdered beetroot juice, Mojave yucca 0.02%), yeasts 0.1% (containing prebiotics: mannan-oligosaccharides and β -glucans), dried thyme 0.01%, glucosamine 0.01%, chondroitin sulphate 0.005%.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 2.7%, crude fibre – 0.6%, moisture – 79%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi Pure Line – duck with sweet potatoes is a complete, single-protein food for adult dogs of all breeds. It is an excellent choice for dogs with sensitivities or allergies to proteins other than duck, providing gentle, well-tolerated nutrition. The recipe covers 100% of the daily requirement for essential nutrients and is based on a high-meat formula with 65% duck and duck-derived animal ingredients only. Duck is a highly digestible source of biologically valuable protein, supplying essential amino acids that support healthy muscles and overall condition. A balanced combination of muscle meat and offal – including connective tissue – naturally enriches the food with vitamins and minerals while enhancing flavor and palatability. Carefully selected levels of protein and fat deliver essential fatty acids and provide the energy needed for proper everyday functioning. The recipe covers 100% of daily nutritional requirements, delivering a balanced, highly palatable meal. It is especially recommended for dogs with food allergies or sensitivities to protein sources other than beef. The formula contains 65% meat and animal-derived ingredients exclusively from beef. A carefully selected combination of muscle meat and offal – including connective tissue – naturally enriches the food with vitamins and minerals, broadens the nutrient profile and enhances flavour and aroma. Beef provides highly digestible, biologically valuable protein rich in essential amino acids. Precisely balanced levels of protein and fat supply key amino acids and fatty acids while providing the energy needed for proper everyday functioning. The mineral composition has been accurately calibrated, with particular focus on the optimal calcium-to-phosphorus ratio, supporting healthy bones and efficient muscular performance in small-breed dogs.

Functional additives further strengthen the recipe:

- sweet potatoes and powdered beef juice to support digestive comfort and vitality,
- glucosamine and chondroitin sulfate to promote joint health and maintain cartilage condition,
- Mojave yucca to support digestive balance and help reduce stool odour,
- yeast as a natural source of valuable nutrients supporting immunity and healthy metabolism,
- dried thyme to enhance sensory appeal.

Thanks to gentle production methods and carefully selected ingredients, the food is easy to digest and characterised by high nutrient availability. It is perfectly suited to the nutritional needs of adult small-breed dogs, including those requiring a beef-only diet due to food allergies.

Super Rafi MINI PURE LINE – lamb with sweet potatoes

Composition: meat and animal derivatives (lamb 65%, including meat 30%), vegetables (sweet potato 4%), minerals, derivatives of vegetable origin (powdered beetroot juice, Mojave yucca 0.02%), yeasts 0.1% (containing prebiotics: mannan-oligosaccharides and β -glucans), dried thyme 0.01%, glucosamine 0.01%, chondroitin sulphate 0.005%.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 2%, crude fibre – 0.6%, moisture – 79%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Super Rafi Mini Pure Line – lamb with sweet potatoes is a complete, single-protein food developed for adult dogs of small breeds. The recipe covers 100% of daily nutritional requirements, delivering a balanced, highly palatable meal. It is particularly recommended for dogs with food allergies or sensitivities to protein sources other than lamb. The formula contains 65% meat and animal-derived ingredients exclusively from lamb. A carefully selected combination of muscle meat and offal – including connective tissue – naturally enriches the food with vitamins and minerals, broadens the nutrient profile and enhances flavour and aroma. The lamb-based recipe provides highly digestible, biologically valuable protein rich in essential amino acids. Precisely balanced levels of protein and fat supply key amino acids and fatty acids while providing the energy needed for proper everyday functioning. The mineral composition has been accurately calibrated, with special focus on the optimal calcium-to-phosphorus ratio, supporting healthy bones and efficient muscular performance in small-breed dogs.

Functional additives further strengthen the recipe:

- sweet potatoes and powdered beet juice to support digestive comfort and vitality,
- glucosamine and chondroitin sulfate to promote joint health and maintain cartilage condition,
- Mojave yucca to support digestive balance and reduce stool odour,
- yeast as a natural source of valuable nutrients supporting immunity and healthy metabolism,
- dried thyme to enhance sensory appeal.

Thanks to gentle production methods and carefully selected ingredients, the food is easy to digest and characterised by high nutrient availability. It is perfectly suited to the nutritional needs of adult small-breed dogs, including those requiring a lamb-only diet due to food allergies.

SUPER RAFI • PURE LINE •

Super Rafi PURE LINE – turkey with sweet potatoes

Composition: meat and animal derivatives 50% (dried turkey 38%, fresh turkey meat 12%), derivatives of vegetable origin (including herbs 0.1%: dried parsley 0.02%, dried lovage 0.02%, dried oregano 0.015%, dried basil 0.015%, dried thyme 0.015%, dried rosemary 0.015%; turmeric 0.05%, Mojave yucca 0.02%), vegetables 15% (dried sweet potato 10%, peas, dried carrots), oils and fats, fruit 2.5% (dried apple, dried cranberry), seeds (linseed 2%), minerals, yeasts 0.1% (containing MOS – mannan-oligosaccharides and β -glucans), glucosamine 0.01%, chondroitin sulphate 0.005%.

Analytical constituents: crude protein – 28%, crude fibre – 3%, crude fat – 14%, crude ash – 9%, moisture – 9%

Additives: nutritional additives/kg: vitamin A – 15,000 IU, vitamin D₃ – 1,200 IU, vitamin E – 90 mg, vitamin K₃ – 2 mg, vitamin B₂ – 5.5 mg, vitamin B₁ – 5 mg, vitamin B₆ – 4 mg, vitamin B₁₂ – 0.055 mg, nicotinic acid – 25 mg, calcium D-pantothenate – 11.25 mg, folic acid – 1 mg, choline chloride – 0.225 mg, zinc (zinc oxide) – 94.5 mg, iron (iron(II) sulphate, monohydrate) – 80 mg, copper (copper(II) sulphate pentahydrate) – 10 mg, manganese (manganese(II) oxide) – 10 mg, iodine (coated, granulated calcium iodate, anhydrous) – 0.925 mg, selenium (sodium selenite) – 0.35 mg; **technological additives:** antioxidants.

Super Rafi Pure Line with turkey and sweet potatoes is a single-protein, complete dry food for adult dogs of all breeds. It has been carefully formulated to provide a balanced diet that meets dogs' daily nutritional needs, with particular attention to those with sensitivities to other protein sources.

The recipe contains a high proportion of meat and animal-derived ingredients (50%), including 38% dried turkey and 12% fresh meat. These ingredients provide a valuable source of highly digestible protein, helping to maintain healthy muscle mass and support overall condition. The formula is enriched with carefully selected plant-based ingredients such as sweet potatoes, peas and carrots. These provide complex carbohydrates and fibre to support healthy digestion and proper digestive function. It also contains fruit, including apple and cranberry, as well as herbs such as oregano, basil, thyme, rosemary and turmeric, and linseed, which may help support metabolism and the body's natural defences.

In addition, the food includes functional ingredients such as MOS and yeast-derived beta-glucans to support healthy gut flora. The addition of glucosamine and chondroitin helps maintain healthy joint function, which is particularly important for both active and older dogs. Its nutritional profile, with 28% protein and 14% fat, provides an appropriate balance of nutrients and energy for adult dogs with different activity levels. A blend of vitamins and minerals, including vitamins A, D₃ and E, as well as trace elements such as zinc, iron and selenium, supports the normal functioning of the immune system and healthy metabolic processes.

With a metabolisable energy value of 350 kcal per 100 g, the food makes it easy to adjust portion sizes to meet a dog's individual needs. For best results, it should be introduced gradually and fed in at least two meals per day.

Overall, Super Rafi Pure Line with turkey and sweet potatoes is a complete, functional and well-balanced dry food for adult dogs of all breeds.

Super Rafi PURE LINE – duck with sweet potatoes

Composition: meat and animal derivatives 57 % (dried duck 37 %, fresh duck meat 20 %), derivatives of vegetable origin (including herbs 0.1 %: dried parsley 0.02 %, dried lovage 0.02 %, dried oregano 0.015 %, dried basil 0.015 %, dried thyme 0.015 %, dried rosemary 0.015 %; turmeric 0.05 %, Mojave yucca 0.02 %), vegetables 13 % (dried sweet potato 6 %, peas, dried carrots), oils and fats, fruit 2.5 % (dried apple, dried cranberry), seeds (linseed 2 %), minerals, yeasts 0.1 % (containing MOS – mannan-oligosaccharides and β -glucans), glucosamine 0.01 %, chondroitin sulphate 0.005 %.

Analytical constituents: crude protein – 28 %, crude fibre – 3%, crude fat – 14 %, crude ash – 9 %, moisture – 9 %

Additives: nutritional additives/kg: vitamin A – 15,000 IU, vitamin D3 – 1,200 IU, vitamin E – 90 mg, vitamin K3 – 2 mg, vitamin B2 – 5.5 mg, vitamin B1 – 5 mg, vitamin B6 – 4 mg, vitamin B12 – 0.055 mg, nicotinic acid – 25 mg, calcium D-pantothenate – 11.25 mg, folic acid – 1 mg, choline chloride – 0.225 mg, zinc (zinc oxide) – 94.5 mg, iron (iron(II) sulphate, monohydrate) – 80 mg, copper (copper(II) sulphate pentahydrate) – 10 mg, manganese (manganese(II) oxide) – 10 mg, iodine (coated, granulated calcium iodate, anhydrous) – 0.925 mg, selenium (sodium selenite) – 0.35 mg; **technological additives:** antioxidants.

Super Rafi Pure Line with duck and sweet potatoes is a single-protein, complete dry food for adult dogs of all breeds. It has been carefully formulated to provide a balanced diet that meets dogs' daily nutritional needs, with particular attention to those with sensitivities to other protein sources.

The recipe contains a high proportion of meat and ingredients of animal origin (57%), including 37% dried duck and 20% fresh meat. These ingredients provide a valuable source of highly digestible protein, helping to maintain healthy muscle mass and support overall condition. The formula is enriched with carefully selected plant-based ingredients such as sweet potatoes, peas and carrots. These provide complex carbohydrates and fibre to support healthy digestion and proper digestive function. It also contains fruit, including apple and cranberry, as well as herbs such as oregano, basil, thyme, rosemary and turmeric, and linseed, which may help support metabolism and the body's natural defences.

In addition, the food includes functional ingredients such as MOS and yeast-derived beta-glucans to support healthy gut flora. The addition of glucosamine and chondroitin helps maintain healthy joint function, which is particularly important for both active and older dogs.

Its nutritional profile, with 24% protein and 14% fat, provides an appropriate balance of nutrients and energy for adult dogs with different activity levels. A blend of vitamins and minerals, including vitamins A, D₃ and E, as well as trace elements such as zinc, iron and selenium, supports the normal functioning of the immune system and healthy metabolic processes.

With a metabolisable energy value of 346 kcal per 100 g, the food makes it easy to adjust portion sizes to meet a dog's individual needs. For best results, it should be introduced gradually and fed in at least two meals per day.

Overall, Super Rafi Pure Line with duck and sweet potatoes is a complete, functional and well-balanced dry food for adult dogs of all breeds.

Additives: nutritional additives/kg: vitamin A – 15,000 IU, vitamin D3 – 1,200 IU, vitamin E – 90 mg, vitamin K3 – 2 mg, vitamin B2 – 5.5 mg, vitamin B1 – 5 mg, vitamin B6 – 4 mg, vitamin B12 – 0.055 mg, nicotinic acid – 25 mg, calcium D-pantothenate – 11.25 mg, folic acid – 1 mg, choline chloride – 0.225 mg, zinc (zinc oxide) – 94.5 mg, iron (iron(II) sulphate, monohydrate) – 80 mg, copper (copper(II) sulphate pentahydrate) – 10 mg, manganese (manganese(II) oxide) – 10 mg, iodine (coated, granulated calcium iodate, anhydrous) – 0.925 mg, selenium (sodium selenite) – 0.35 mg; **technological additives:** antioxidants.

Super Rafi Pure Line with lamb and sweet potatoes is a single-protein, complete dry food for puppies and young dogs of all breeds. It has been carefully formulated to provide a balanced diet tailored to the specific nutritional needs of growing dogs, with particular attention to those with sensitivities to other protein sources.

The recipe contains a high proportion of meat and animal-derived ingredients (62%), including 41% dried lamb and 21% fresh meat. These ingredients provide a valuable source of highly digestible protein, which plays an important role in the development and maintenance of muscle mass and supports the proper growth and development of the body.

The formula is enriched with carefully selected plant-based ingredients such as sweet potatoes and carrots. These provide complex carbohydrates and fibre to support healthy digestion and proper digestive function. It also contains fruit, including apple and cranberry, as well as herbs such as oregano, basil, thyme and rosemary, and linseed, which may help support metabolism and the body's natural defences. In addition, the food includes functional ingredients such as MOS and yeast-derived beta-glucans to support healthy gut flora. The addition of glucosamine and chondroitin helps support the proper development and function of the joints, which is particularly important during periods of rapid growth.

Its nutritional profile, with 28% protein and 14% fat, provides an appropriate balance of nutrients and energy for growing dogs. A blend of vitamins and minerals, including vitamins A, D₃ and E, as well as trace elements such as zinc, iron and selenium, supports the development of the immune system and the normal functioning of metabolic processes.

With a metabolisable energy value of 348 kcal per 100 g, the food makes it easy to adjust portion sizes to meet a growing dog's individual needs.

Overall, Super Rafi Pure Line with lamb and sweet potatoes is a complete, functional and well-balanced dry food that supports proper development during the growth phase.
